TABLE

des Noms latins, français et allemands

DES PLANTES FIGURÉES

DEUXIÈME SÉRIE

- Clematis Vitalba, L. Clématite des haies; Herbe aux gueux. Gemeine Waldrebe; Hexenstrang.
- 152. Anemone nemorosa, L. Anémone Sylvie. Busch-Windröschen.
- 153. Ranunculus aconitifolius, L. Renoncule à feuilles d'aconit. Eisenhutblätteriger Hahmenfuss.
- 154. Ranunculus Flammula L. Renoncule Flammette; Petite douve. Brennender Hahnenfuss.
- 155. Ranunculus acris, L. Renoncule àcre; Pied de corbin. Scharfer Halmenfuss.
- 156. Ranunculus Ficaria, L. Renoncule Ficaire. Feigwurzeliger Hahnenfuss.

- Caltha palustris, L.
 Populage; Souci des
 marais.

 Gemeine Dotterblume.
- 158. Trollius europæus, L. Trolle d'Europe; Bouled'or. Europäische Trollblume, Kugel-Ranunkel.
- 159. Helleborus niger, L.
 Ellébore noir; Rose de Noël.
 Schwarze Niesswurz;
 Schneeblume.
- 160. Nigella arvensis, L. Nigelle des champs; Poivrette sauvage. Acker-Schwarzkümmel.
- 161. Nymphæa alba, L. Nénuphar blane: Lys d'eau ou des étangs. Weisse Seerose; Wasserlilie.
- 162. Nymphæa lutea, L. Nénuphar jaune; Plateau. Gelbe Seerose; Teichrose.

- 163. Chelidonium majus, L. Chélidoine; Eclaire. Grosses Schöllkraut.
- 164. Corydalis cava, Schweigh. Corydale à racine creuse. Hohler Lerchensporn.
- 165. Fumaria lutea, L. Corydale jaune. Gelber Lerchensporn.
- 166. Fumaria officinalis, L. Fumeterre officinale. Gemeiner Erdrauch.
- Raphanus Raphanistrum, L.
 Radis sauvage; Ravenelle.
 Acker-Rettig.
- 168. Sinapis arvensis, L. Moutarde des champs; Sénevé. Acker-Senf.
- Isatis tinctoria, L.
 Pastel des teinturiers;
 Guède.
 Färber-Waid.
- 172. Cochlearia officinalis, L. Cranson officinal; Herbe aux cuillers. Löffelkraut; Scharbockskraut.
- 173. Teesdalia nudicaulis, R.Br. Teesdalie à tige nue. Nacktstengelige Teesdalie.
- 174. Drosera rotundifolia, L. Rossolisà feuillesrondes. Rundblätteriger Sonnenthau.

- 175. Reseda Luteola, L. Réséda Gaude; Herbe à jaunir. Färber-Wau; Gelbkraut.
- 176. Thlaspi alpinum, Jacq. Tabouret des Alpes. Alpiges Täschelkraut.
- 177. Thlaspi arvense, L. Tabouret des champs; Monnoyère. Acker-Täschelkraut.
- 178. Polygala amara, L. Polygala amer. Bittere Kreuzblume.
- 179. Silene inflata, Sm. Silène à calice enflé; Béhen, Carnillet. Blasiges Leimkraut.
- 180. Silene rupestris, L. Silène des rochers. Felsen-Leimkraut.
- 181. Silene nutans, L. Silène penché. Uberhängendes Leimkraut.
- 182. Lychnis Flos-cuculi, L. Lychnide Fleur de Coucou. Kukuks Lichtnelke.
- 183. Lychnis dioica, L.
 Lychnide du soir; Robinet, Compagnon blanc.
 Weisse Lichtnelke;
 Abend-Lichtblume.
- 184. Lychnis sylvestris, Hopp. Lychnide du jour. Rothe Waldnelke; Tag-Lichtblume.

- 185. Agrostemma Githago, L. Nielle des blés; Œillet de Dieu. Korn-Lichtnelke.
- 186. Saponaria officinalis, L. Saponaire officinale; Savonnière. Gemeines Seifenkraut.
- 187. Gypsophila muralis, L. Gypsophile des murs. Mauer-Gypskraut.
- 188. Dianthus prolifer, L. Œillet prolifère. Sprossende Nelke.
- 189. Cerastium vulgatum, Gaud. Céraiste commun. Triften-Hornkraut.
- 190. Cerastium alpinum, L. Céraiste des Alpes. Alpen-Hornkraut.
- 191. Malva Alcea, L. Mauve Alcée. Gelapptblätterige Malve.
 - 192. Malva sylvestris, L. Mauve sauvage; Fromageon. Wald-Malve.
- 193. Geranium palustre, L. Géranium des marais. Sumpf-Storchschnabel.
- 194. Geranium sanguineum, l. Géranium sanguin; Herbe à becquet. Blutrother Storchschnabel.

- 195. Geranium robertianum, L.
 - Géranium Herbe à Robert; Herbe à l'esquinancie.
 - Stinkender Storchschnabel; Ruprechtskraut.
- 196. Geranium pyrenaicum, L. Géranium des Pyrénées. Pyrenäischer Storchschnabel.
- 197. Geranium molle, L. Géranium mollet. Weicher Storchschnabel.
- 198. Genista sagittalis, L. Genêt à tige ailée; Esparjolle. Geflügelter Ginster.
- 199. Ononis Natrix, L. Bugrane gluante. Zottige Hauhechel.
- 200. Anthyllis Vulneraria, L. Anthyllide Vulnéraire. Gemeiner Wundklee.
- Medicago Lupulina, L. Luzerne Lupuline; Minette dorée. Hopfenartiger Schneckenklee.
- 202. Melilotus officinalis, Willd. Mélilot officinal. Gebraüchlicher Honigklee.
- 203. Trifolium montanum, L. Trèfle de montagne. Berg-Klee.

- 204. Trifolium procumbers, L. Trèfie couché. Liegender Klee.
- 205. Trifolium scabrum, L. Trèfle scabre. Scharfer Klee.
- 206. Trifolium repens, L. Trèfle rampant; Triolet. Kriechender Klee.
- 207. Trifolium pratense, L. Trèfic des prés. Wiesen-Klee.
- 208. Trifolium rubens, L. Trèfie purpurin. Langähriger Klee.
- 209. Trifolium hybridum, L. Trèfle bâtard. Bastard-Klee.
- 210. Lotus corniculatus, L. Lotier corniculé. Gemeiner Schotenklee.
- 211. Astragalus leontinus, Wulf. Astragale de Lienz (Tyrol). Lienzer Traganth.
- 212. Colutea arborescens, L. Baguenaudier; Séné indigène. Gemeine Blasenşchote.
- 213. Robinia Pseudo-Acacia, L. Robinier Faux-Acacia; Acacia. Gemeine Acacie.
- 214. Cytisus Laburnum, L. Cytise Aubours; C. à grappes, Faux-Ebéner, Bohnen-Geisklee.

- 215. Vicia Gracca, L. Vesce multiflore; Pois à crapaud. Vogel-Wicke.
- 216. Vicia sepium, L. Vesce des haies. Hecken-Wicke.
- 217. Vicia sylvatica, L. Vesce des bois. Wald-Wicke.
- 218. Lathyrus Aphaca, L. Gesse sans feuilles; Reluiscau. Acker-Platterbse.
- 219. Lathyrus hirsutus, L. Gesse velue.

 Zottige Platterbse.
- 220. Lathyrus sylvestris, L. Gesse sauvage; Pois aux lièvres. Wald-Platterbse.
- 221. Lathyrus pratensis, L. Gesse des prés. Wiesen-Platterbse.
- 222. Lathyrus latifolius, L. Gesse à larges feuilles; Pois à bouquet. Breitblätterige Platterbse.
- 223. Goronilla varia, L. Coronille bigarrée; Pied de grolle. Bunte Kronenwicke.
- 224. Coronilla Emerus, L. Coronille Baguenaudier; Séné sauvage. Strauchige Kronenwicke.

225. Ornithopus perpusillus, L. Ornithope délicat; Pied d'oiseau.

Kleinster Vogelfuss.

226. Hedysarum Onobrychis, L. Esparcette cultivée; Sainfoin. Zahme Esparsette.

Spiræa Ulmaria, L.
 Spirée Ormière; Reine des prés.
 Wiesen-Spierstaude.

228. Geum rivale, L.
Benoîte des ruisseaux.
Bach-Nelkenwurz.

- 229. Potentilla multifida, L. Potentille multifide. Vielspaltiges Fingerkraut.
- 230. Potentilla supina, L. Potentille couchée. Liegendes Fingerkraut.
- 231. Potentilla verna, L. Potentille printanière. Frühlings-Fingerkraut.
- 232. Rosa tomentosa, L. Rosier tomenteux. Filzige Rose.
- 233. Rosa canina, L. Eglantier commun. Gemeine Heckenrose.
- 234. Rosa arvensis, Huds. Rose des champs. Feld-Rose.
- 235. Rosa rubiginosa, L. Rosier rouillé; Eglantier odorant. Rostfarbige Rose; Weinrose.

- 236. Agrimonia Eupatoria, L. Aigremoine Eupatoire. Gemeiner Odermennig.
- 237. Cratægus monogyna, Jacq. Aubépine à un style. Eingriffeliger Weissdorn.
- 238. Epilobium rosmarinifolium, Hænk. Epilobe à feuilles de romarin. Rosmarinblätteriges Weidenröschen.
- 239. Œnothera biennis, L. Onagre bisannuelle: Herbe aux ànes. Zweijährige Nachtkerze.
- 240. Circæa lutetiana, L. Circée commune; Herbe aux sorcières. Gemeines Hexenkraut.
- Lythrum Salicaria, L. Salicaire commune;
 Lysimachie rouge.
 Gemeiner Weiderich.
- 242. Myricaria germanica, Desv. Tamarix d'Allemagne. Deutsche Tamariske.
- 243. Bryonia dioica, Jacq. Bryone dioïque; B. à fr. rouges, Couleuvrée. Zweihaüsige Zaunrebe; Schwarzwurz.
- 244. Corrigiola littoralis, L. Corrigiole des rives. Gemeiner Hirschsprung

- 245. Scleranthus annuus, L. Gnavelle annuelle. Jähriger Knäuel.
- 246. Sedum Telephium, L. Orpin Reprise; Herbe à à la coupure.
 Knollige Fetthenne.
- 247. Sedum atratum, L. Orpin brunâtre. Bräunliche Fetthenne.
- 248. Sedum acre, L.
 Orpin brûlant; Poivre
 de muraille.
 Scharfe Fetthenne;
 Mauerpfeffer.
- 249. Chrysosplenium alternifolium, L. Dorine à feuilles alternes; Cresson doré.

nes; Cresson doré. Wechselblätteriges Milzkraut.

- 250. Laserpitium prutenicum, L. Laser de Prusse. Preussisches Laserkraut.
- 251. Lonicera Caprifolium, L. Chèvrefeuille des jardins. Garten-Geissblatt.
- 252. Rubia tinctorum, L. Garance des teinturiers. Färberröthe.
- 253. Galium Aparine, L. Gaillet Gratteron. Kletterndes Labkraut.
- 254. Asperula odorata, L. Aspérule odorante; Reime des bois, Belle-étoile. Wohlriechender Waldmeister.

- 255. Sherardia arvensis, L. Rubéole des champs. Acker-Sherardie.
- 257. Valeriana dioica, L. Valériane dioïque; V. des marais.
- Zweihäusiger Baldrian. 258. Valeriana officinalis, L.
- Valériane officinale. Officineller Baldrian.
- 259. Dipsacus pilosus, L. Cardère poilue; Petite verge de pasteur. Behaarte Kardendistel.
- 260. Scabiosa arvensis, L. Scabieuse des champs. Acker-Scabiose.
- 261. Eupatorium cannabinum, l. Eupatoire à feuilles de chanvre.
- Gemeiner Wasserdost. 262. Tussilago Farfara, L.
- Tussilage Pas-d'âne; Taconnet. Gemeiner Huflattig
- 263. Tussilago Petasites, L. Pétasite officinal; Herbeaux teigneux. Pestwurz-Huflattig.
- 264. Aster Amellus, L. Aster Amelle; Œil de Christ. Virgil's Sternblume.
- 265. Bellis perennis, L. Pàquerette vivace; Petitemarguerite.
 - Gemeines Maasliebchen.

- 266. Arnica Clusii, All. Arnica de Clusius. Clusiussches Schwindelkraut.
- 267. Senecio vulgaris, L. Séneçon commun; Toute-venue. Gemeines Kreuzkraut.
- 268. Senecio paludosus, L. Séneçon des marais. Sumpf-Kreuzkraut.
- 269. Tanacetum vulgare, L.
 Tanaisie commune:
 Herbe aux vers.
 Gemeiner Rainfarrn:
 Wurmsaamen.
- 270. Anthemis arvensis, L. Camomille des champs. Acker-Hundskamille.
- 271. Inula dysenterica, L. Inule dysentérique; Herbe de St-Roch. Ruhr-Flöhkraut.
- 272. Gnaphalium dioicum, L. Gnaphale dioïque; Pied de chat.
 Zweihäusiges Ruhrkraut;
 Katzenpfötchen.
- 273. Conyza squarrosa, L.
 Conyze rude; Herbe aux
 moucherons.
 Sparrige Dürrwurz:
 Flöhkraut.
- 274. Cirsium arvense, Scop. Cirse des champs; Herbe aux varices. Acker-Kratzdistel.

- 275. Centaurea solstitialis, L. Centaurée du solstice. Sommer-Flockenblume.
- 276. Serratula tinctoria, L. Sarrète des teinturiers. Färber-Schartendistel.
- 277. Cichorium Intybus, L. Chicorée sauvage. Gemeine Cichorie.
- 278. Arnoseris pusilla, Gartu. Arnoséride fluette. Kleiner Lämmersalat.
- 279. Prenanthes purpurea, L. Prénanthe pourpre. Rother Hasenlattich.
- 280. Jasione montana, L. Jasione des montagnes. Berg-Jasione.
- Phyteuma spicatum, L. Raiponce en épi; Rave sauvage. Geährte Rapunzel.
- 282. Campanula persicæfolia, L. Campanule à feuilles de pêcher.

Pfirsichblätterige Glockenblume.

- 283. Monotropa Hypopitys, L. Monotrope Sucepin. Vielblumiges Ohnblatt.
- 284. Utricularia vulgaris, L.
 Utriculaire commune;
 Millefeuille des marais.
 Gemeiner Wasserschlauch.
- 285. Primula elatior, Jacq. Primevère élevée; P. inodore. Hohe Schlüsselblume.

- 286. Primula officinalis, Jacq.
 Primevère officinale;
 Coucou.
 Officinelle Schlüsselblung.
- 287. Primula farinosa, L. Primevère farineuse. Gepuderte Primel.
- 288. Androsace alpina, Lam. Androsace des Alpes. Alpen-Mannsschild.
- 289. Lysimachia Nummularia, L. Lysimachie Nummulaire; Monnoyère. Kriechende Lysimachie; Pfenningkraut.
- 290. Lysimachia vulgaris, L. Lysimachie commune; Casse-bosse. Gemeine Lysimachie;

Gelber Weiderich.
291 Anagallis arvensis, L.

Mouron des champs.
Acker-Gauchheil.

- 292. Anagallis cœrulea, Schreb. Mouron bleu. Blauer Gauchheil.
- 293. Vinca minor, L. Petite-Pervenche. Kleines Sinngrün.
- 294. Erythræa Centaurium, Pers. Petite-Centaurée. Gemeines Tausendgüldenkraut.
- 295. Gentiana Cruciata, L. Gentiane Croisette. Kreuz-Enzian.

- 296. Gentiana lutea, L.
 Gentiane jaune; Grandegentiane.
 Gelber Enzian.
- 297. Gentiana nivalis, L. Gentiane des neiges. Schnee-Enzian.
- 298. Gentiana bavarica, L. Gentiane de Bavière. Baierischer Enzian.
- 299. Menyanthes trifoliata, L. Ményanthe Trèfle-d'eau. Dreiblätterige Zottenblume; Bitterklee.
- 300. Polemonium cœruleum, l.
 Polémoine bleue; Valériane grecque.
 Blaues Sperrkraut.
- 301. Convolvulus arvensis, L. Liseron des champs; Vrillée.

Acker-Winde.

- 302. Convolvulus sepium, L. Liseron des haies. Hecken-Winde.
- 303. Myosotis palustris, With.
 Myosote des marais;
 Ne-m'oubliez-pas.
 Aechtes Vergiss-meinnicht.
- 304. Pulmonaria officinalis, L. Pulmonaire officinale. Gemeines Lungenkraut.
- 305. Solanum Dulcamara, L. Morelle Douce-amère. Bittersüss-Nachtschatten.

- 306. Listera ovata, R. Br. Listère à feuilles ovales. Eirunde Listere.
- 307. Atropa Belladonna, L. Atrope Belladone; Bouton noir. Gemeines Tollkraut; Tollkirsche.
- 308. Datura Stramonium, L. Stramoine commune: Pomme épineuse. Gemeiner Stechapfel.
- 309. Verbaseum thapsiforme, Schrad. Molène Bouillon-blanc: Bonhomme. Grossblumiges Wollkraut.
- 310. Veronica officinalis, L. Véronique officinale: Thé d'Europe. Aechter Ehrenpreis.
- 311. Veronica Chamædrys, L. Véronique Petit-chêne: Fausse-germandrée. Wald-Ehrenpreis.
- 312. Veronica saxatilis, L. Véronique des rochers. Felsen-Ehrenpreis.
- 313. Euphrasia officinalis, L. Euphraise officinale; Casse-Lunette. Gebräuchlicher Augen-

trost.

- 314. Melampyrum cristatum, L. Mélampyre à crêtes Kammähriger Wachtelweizen.
- 315. Melampyrum arvense, L. Mélampyre des champs; Blé de vache. Acker-Wachtelwzeien.
- 316. Orobanche major, L. Orobanche élevé. Hoher Sommerwurz.
- 317. Salvia glutinosa, L. Sauge glutineuse. Klebrige Salbei.
- 318. Salvia pratensis, L. Sauge des prés. Wiesen-Salbei.
- 319. Glechoma hederacea, L. Lierre terrestre: Rondotte. Kriechende Gundelrebe.
- 320. Lamium maculatum, L. Lamier tacheté; Ortiemorte. Gefleckte Taubnessel.
- 321. Melittis Melissophyllum, L. Mélitte à feuilles de mélisse; Mélisse des bois. Melissenblätteriges Immenblatt.
- 322. Colchicum autumnale, L. Colchique d'automne; Tue-Chien. Gemeine Zeitlose:

Herbstblume.

Clematis Vitalba

Clématite des haies

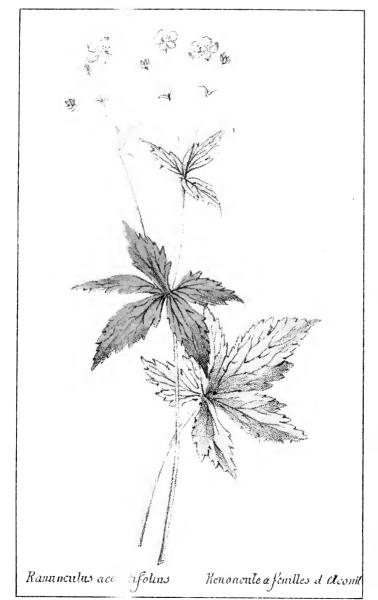

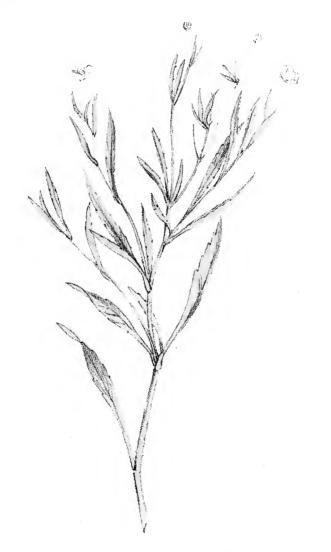

Anemone nemorosa ?

Anemone Sylvie.

Ranunculus flammula S.

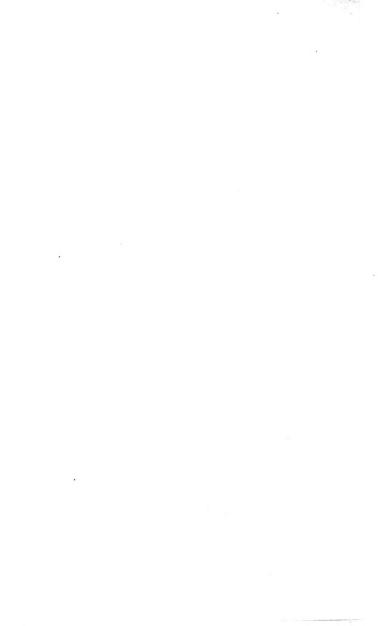

Renoncule Flammette

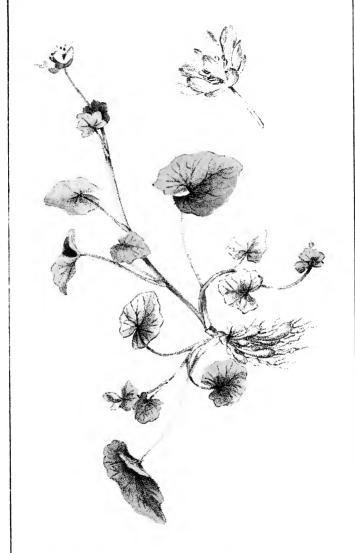

Ranunculus Aeris

Renoncule Acre

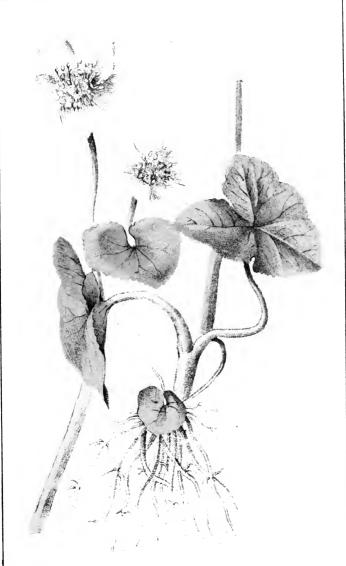

Ranunculus Ficaria E.

Renoncule Ficaire

Calta julustris E.

Topulage

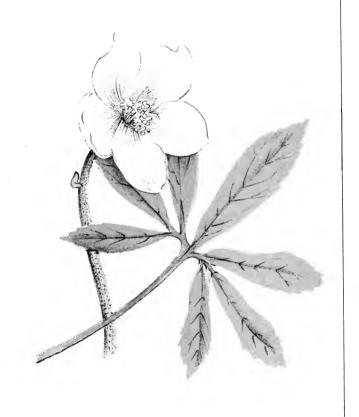

Grollius Europaeus

Crolle d'Europe

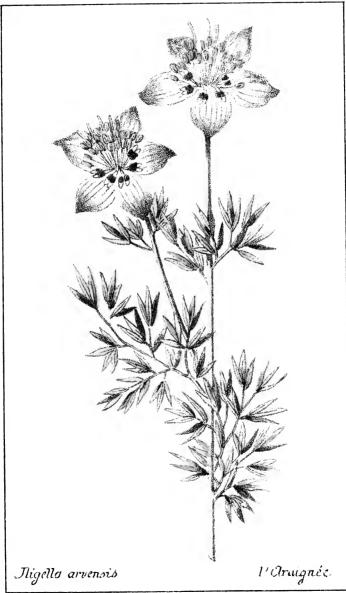

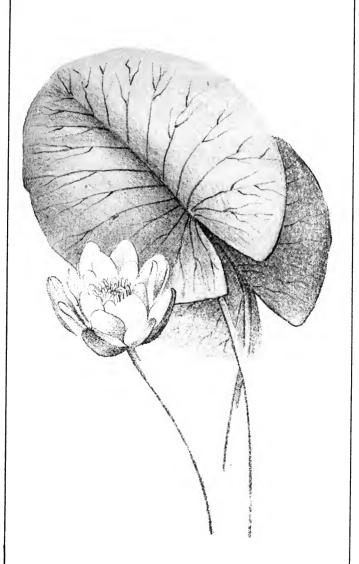

Helleborus.

La rose de Noël.

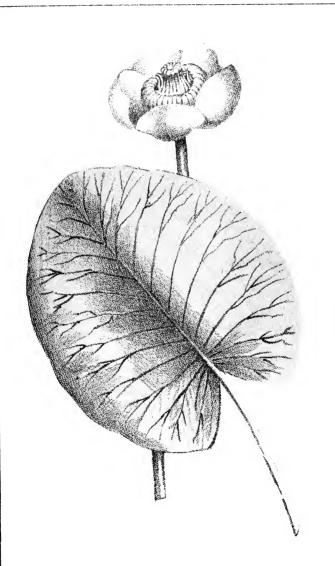

Nymythaea alba \mathfrak{E} .

Eis des Etangs nenuphar

Nymphaea Iutea L.

Menuphar janne

Chelidonium majus

Chelidoine

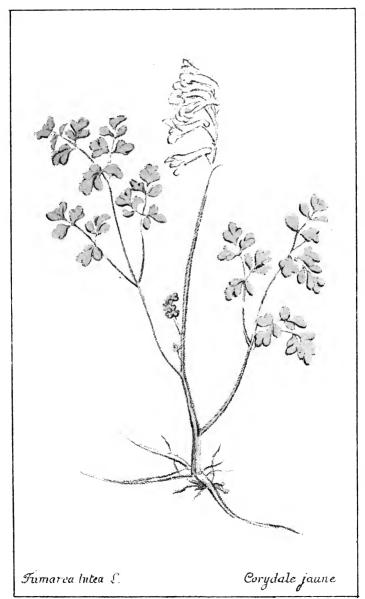

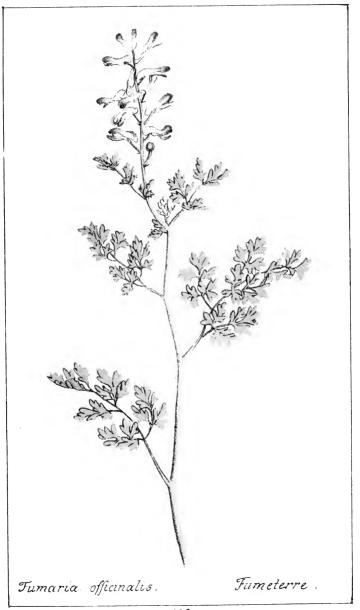

Corydalis cava

Corydale creuse

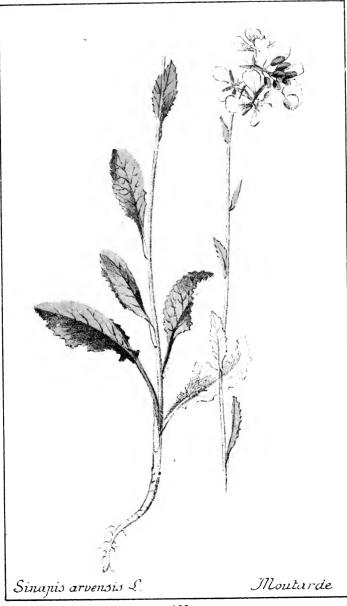

Rajihanus

Radis sauvage

Isatis Tinetoria

Le Pastel au Gouède.

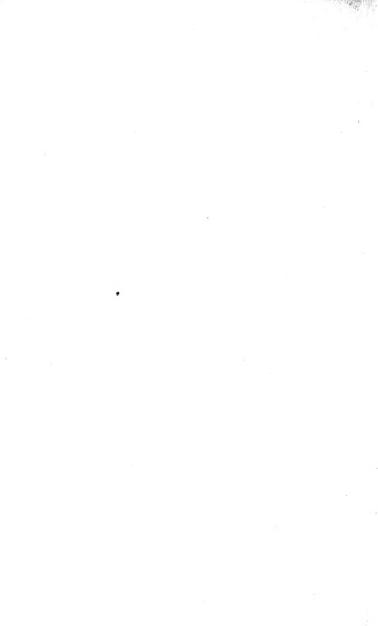

Cochlearia officinalis

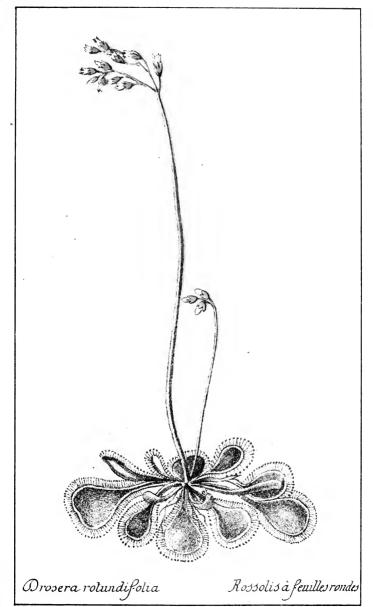

Crasson

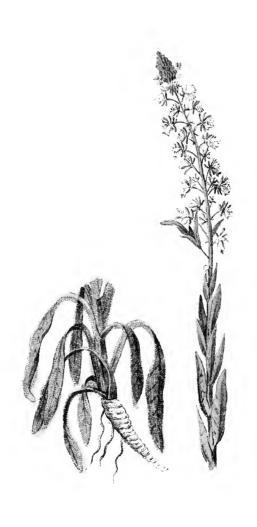

Ceesdalia nudicaulis Ceesdalir à tiges nues ou Ibéride

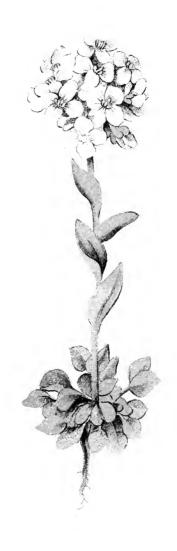

Reseda luteola. La Saude ou Réséda sauvage.

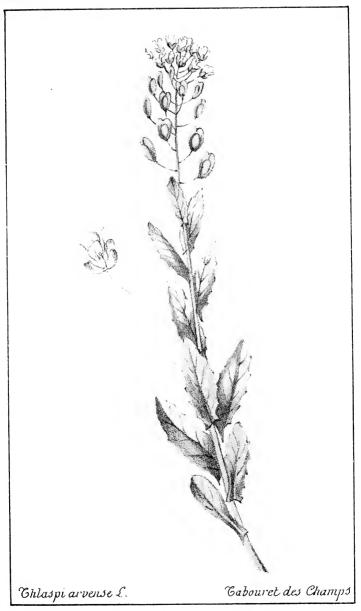

Thlaspi alpinum.

Tabouret Alpestre

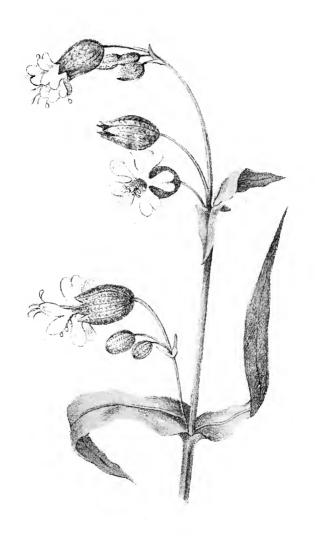

Polygala amara

Polygala amer

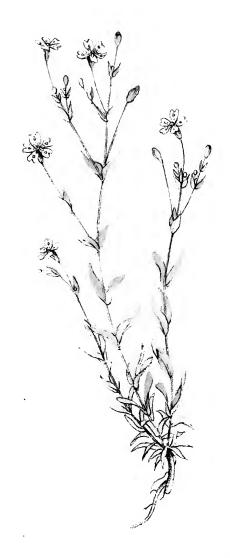

Silène infiala .

Silène Vésiculeuse

Silene rupestris E.

Silène des Roches

Silène Ilutans

Silène penché

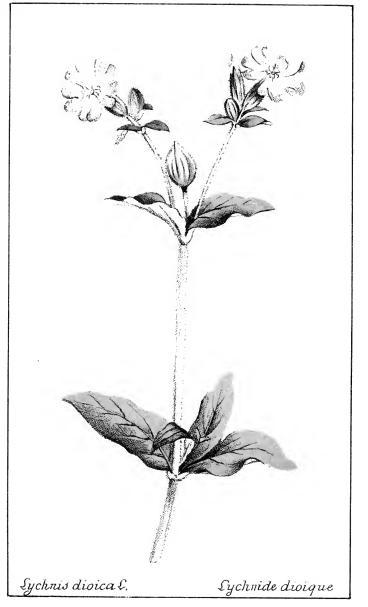

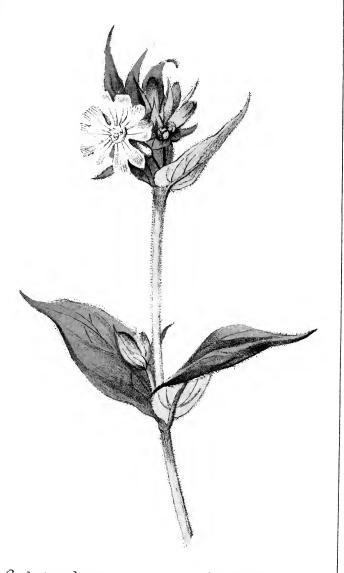

Eychnis Flos-Caculli

Eychnicle fleur de coucou

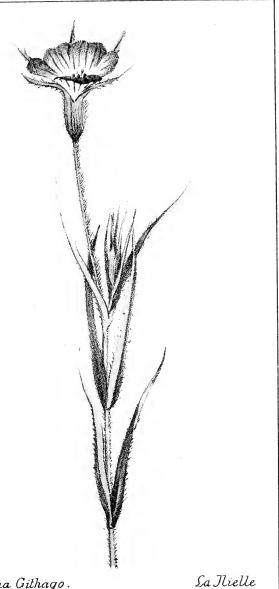

Eychnis sylvestris

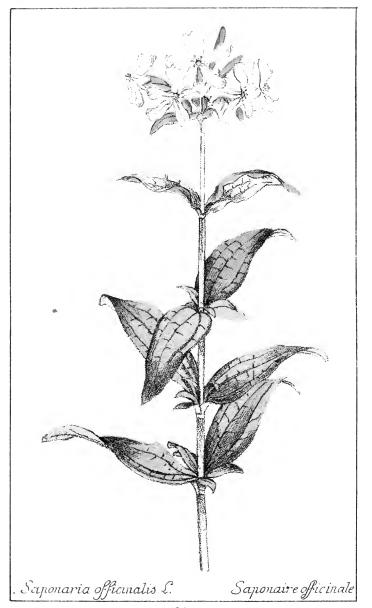

Sychnide sauvage

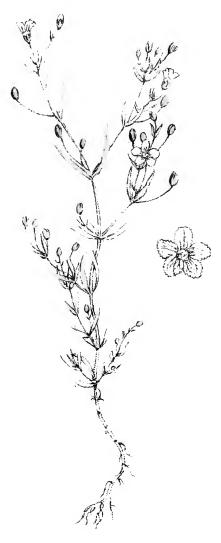

Agrostema Githago .

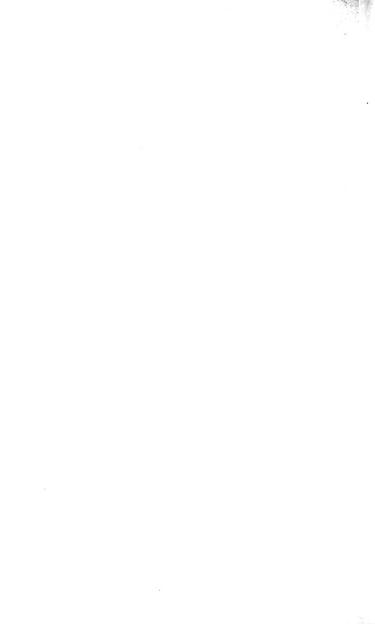

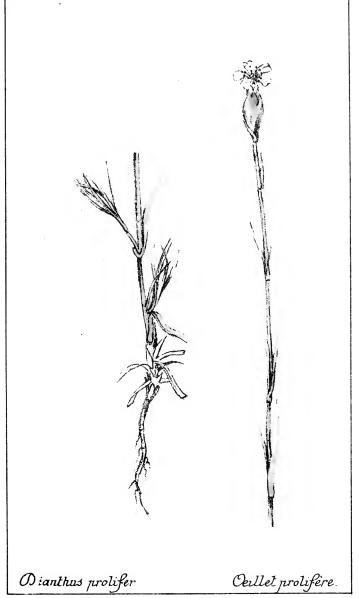

Gypsophila muralis E. Gypsophile des murs

Cerastium vulgatum L.

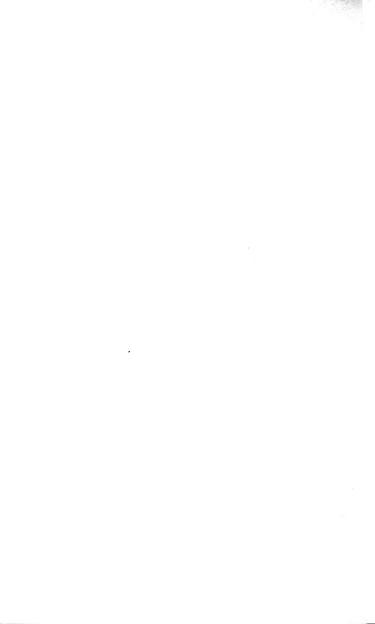

Ceraiste Commun

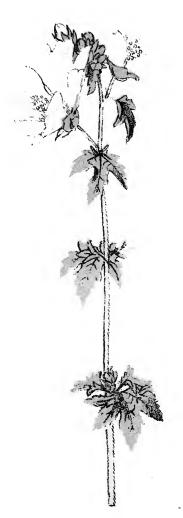

Cerastium alpinum.

Ceraiste des Alpes.

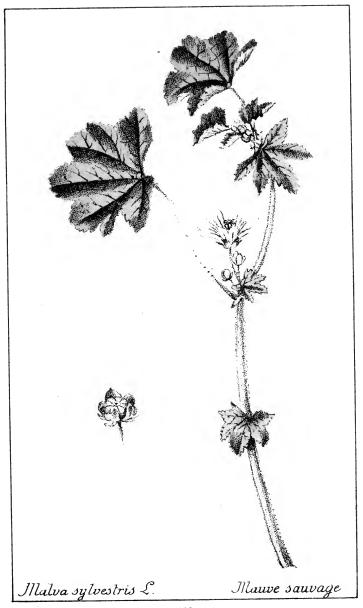

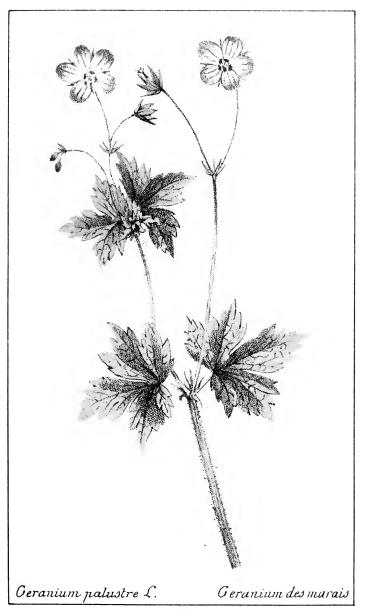

Malva Alcca S.

Mauve Alcée

Geranium sanguineum E.

Geranium sanguin

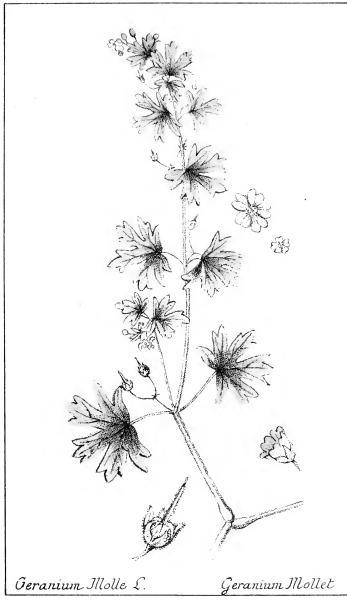

Geranium robertianum

Herbe à Robert

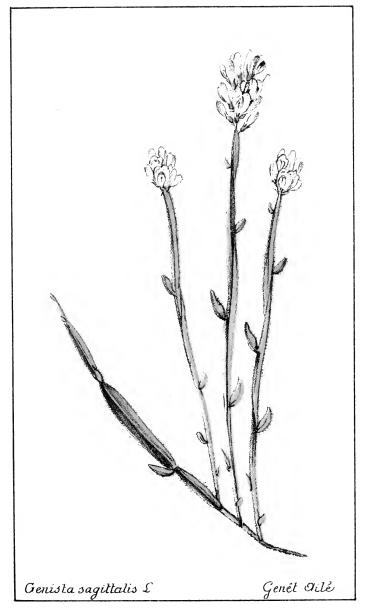

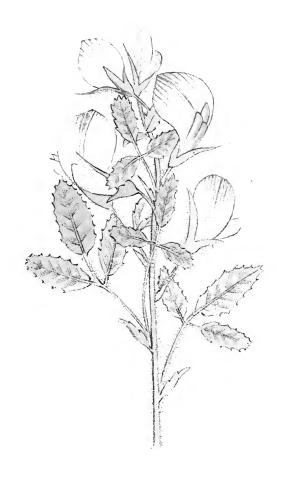

Geranium pyrenaicum & Geranium des Zurenées

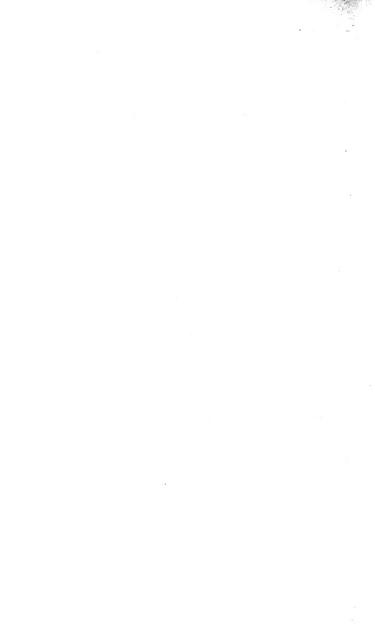

Ononis Natrix

Bugrane gluante

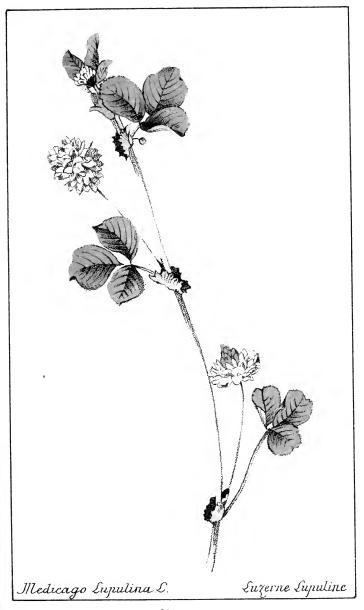

Anthyllis vulueraria E.

Anthyllide vulnéraire

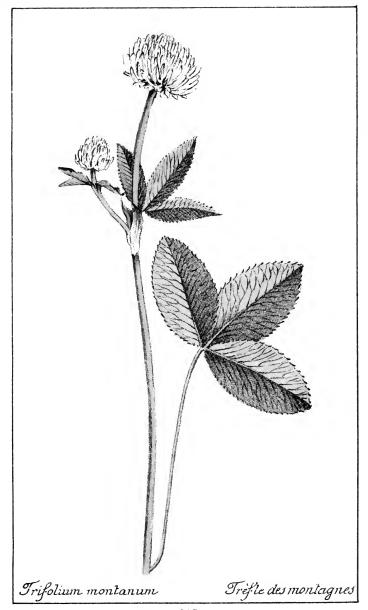

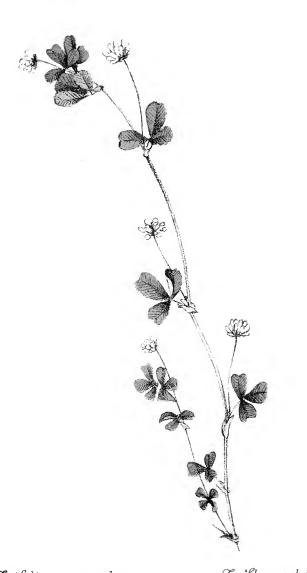

Crifolium Ittelit officinalis L. Welitot officinal

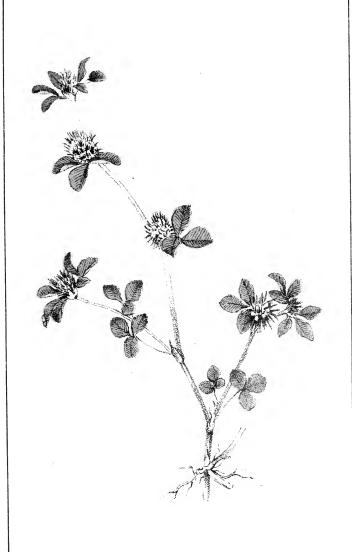

Crifolium jırocumbens

Crêfle couché

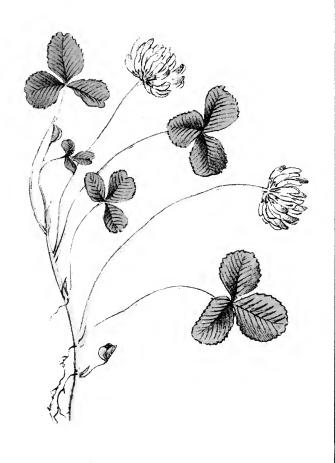

Trifolum scabrum £.

Crèfle raboteux ou scabre

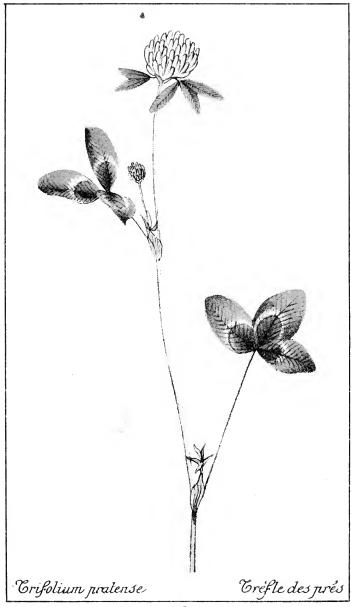

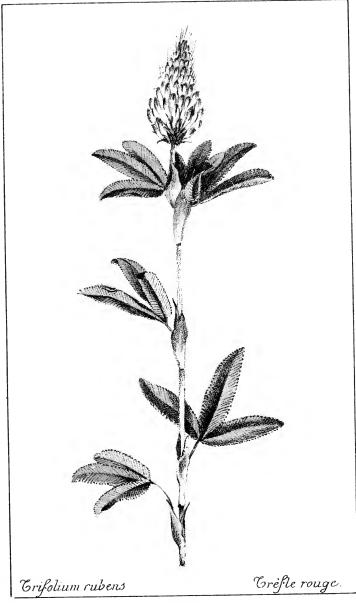

Crifolium repens S.

Crèfle rampant

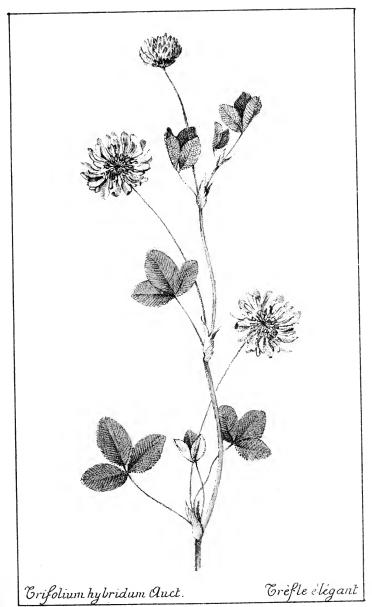

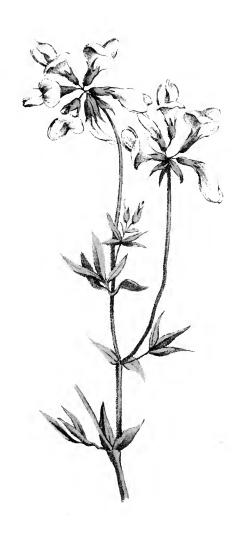

Lotus corniculatus

Sotier corniculé

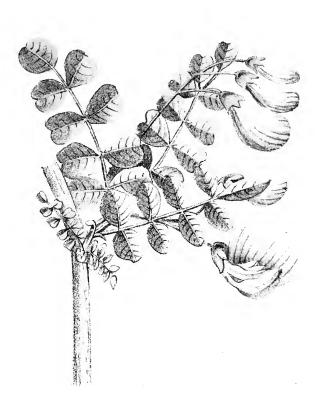

Astragalus leontinus

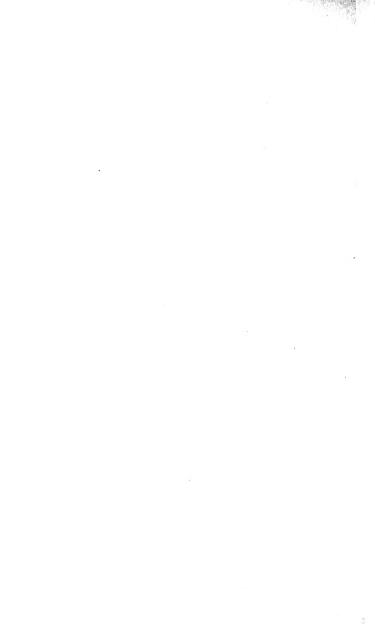

Astragale de l'entzbourg

Colutea Arborescens.

& Baguenaudier

Robinia Beudacacia

L'Ocacia

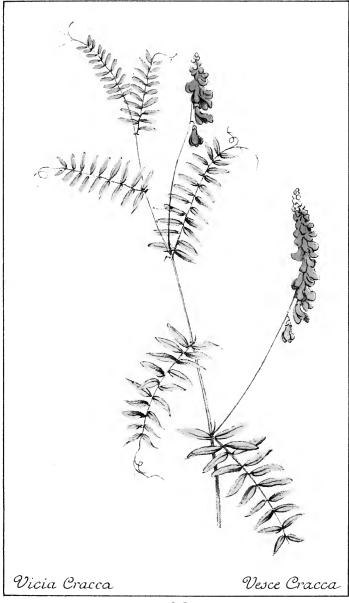

Cylisus Laburnum

Cylise à grajques

Vicia sepium
